SERVICES & INDUSTRIES

The TenCate Tecastyle® collection is a range of fabrics with a stylish appearance.

NB 1043 – 225 g/m²

TenCate Tecastyle® – NB 1043
High-visibility outdoor fabrics
Polyester/cotton 80/20% (Warp: 100% polyester filament, weft: polyester/cotton 65/35%)

TenCate Tecastyle® NB 1043 is an ideal fabric for high-visibility applications and/or outdoor wear. The fabric has a 3/1 twill construction and complies with Öko-Tex Standard 100. It has a shiny appearance thanks to a filament polyester warp crossed by a polyester/cotton weft. The fabric is extremely durable and water-repellent.

Outstanding value – Suitable for application in workwear and coporate wear. Ideal for outdoor work and much used in sectors such as emergency services (e.g., ambulance services, rescue services, police) and public works.
Optional: High-visibility yellow, orange and red – Complies with EN 20471: 2013. Within EN 471, the contrast colours have also been tested. Different colours can be combined.
Optional: Foul-weather protection – The special Hydro-Control™ membrane is waterproof, breathable and offers good protection against wind (complies with EN 343 3/3: 1998).
Limited chemical protection – Protects against splashes, thanks to Hydro-Tec, an innovative nanotechnology finish (complies with EN 13034: 2005).
Extremely durable – Due to the use of 100% polyester fibres.
Long-lasting looks – Available in a wide range of different colours. Retains looks even after repeated industrial laundering.
Öko-Tex Standard 100 – Tested for harmful substances.

TenCate Protective Fabrics

TenCate is the world's No. 1 producer of protective fabrics for the manufacturing of safety wear. We supply garment-makers with an extensive range of top-quality and technologically advanced fabrics.

Our fabrics become lifesaving garments for firefighters, industrial workers, military personnel and other professionals working under hazardous conditions in danger zones around the world.

We work closely with our customers, end-users, fibre and chemical manufacturers and independent laboratories. As a result, TenCate Protective Fabrics is the one source the world looks to for leadership in knowledge of materials, consistent product quality, and a proven commitment to service excellence.

TenCate is a trademark of Royal Ten Cate nv. Tecastyle is a trademark of Ten Cate Protect bv.
Ten Cate Protect bv is a subsidiary of Royal Ten Cate nv.
