TENCATE Tecastyle®

SERVICES & INDUSTRIES

The TenCate Tecastyle® collection is a range of fabrics with a stylish appearance.

KG 725 - 250 g/m² (stretch)

TENCATE STRETCH RECOVERY™ Technology

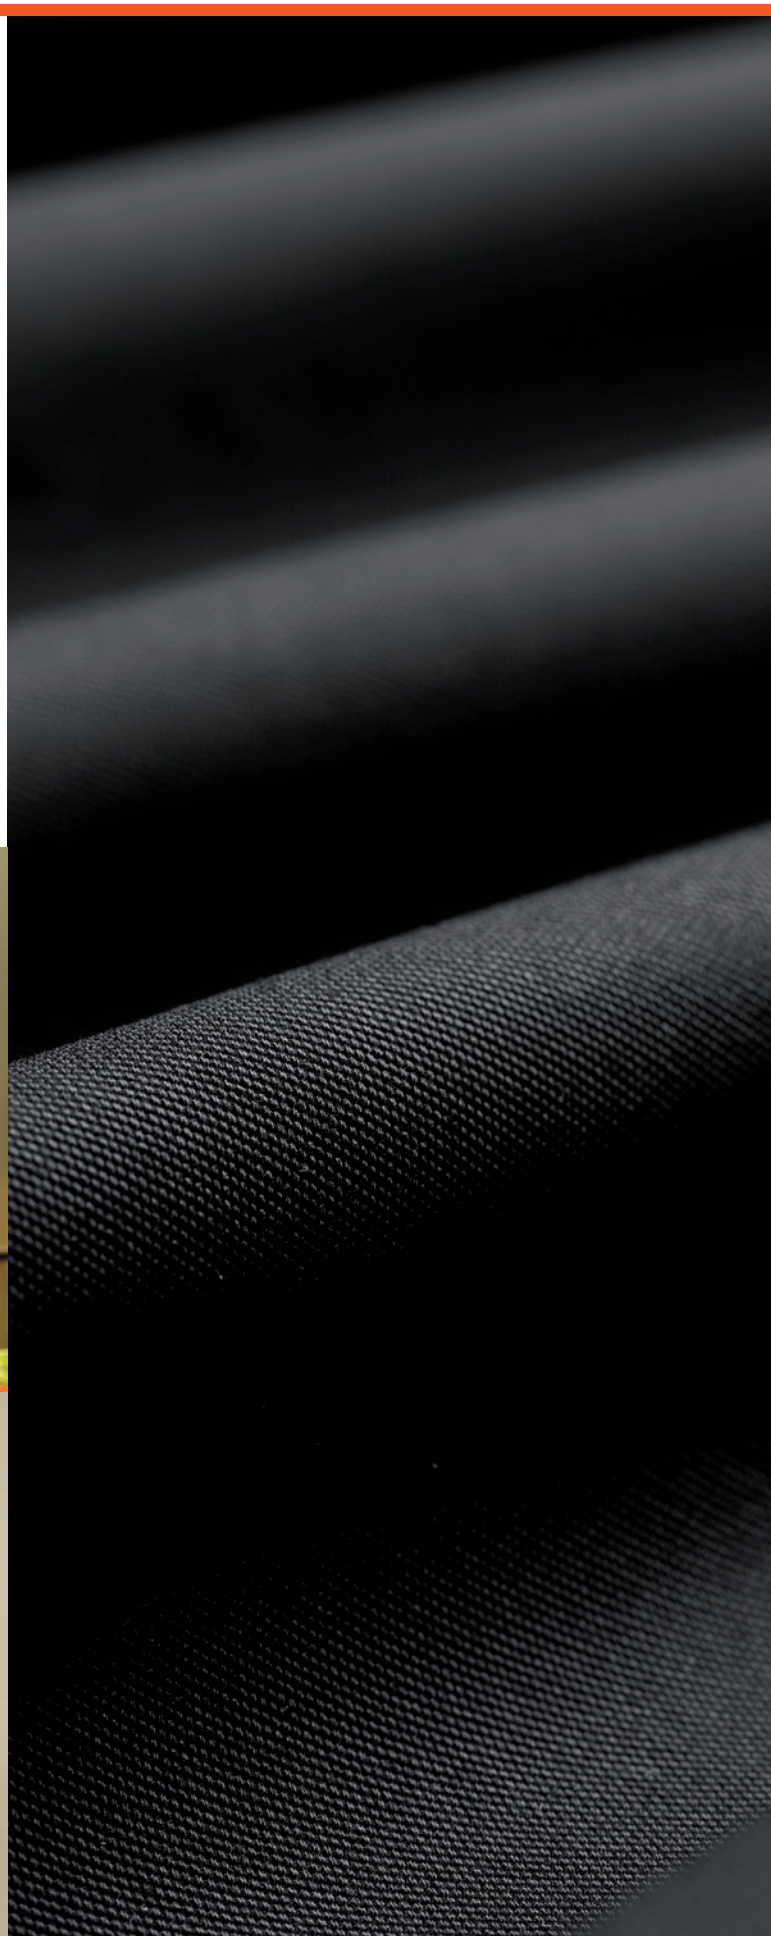

High-comfort stretch fabric with long-lasting shape recovery, even after repeated industrial laundering

TenCate is setting a new standard for comfortable stretch fabrics. Our latest fabric offers great elasticity, enabling garment manufacturers to design tight-fitting yet highly comfortable work wear. This fabric has been developed using a TenCate Stretch Recovery™ technology. This gives the fabric excellent stretch and recovery properties, as well as superb performance in industrial laundering.

Excellent stretch and recovery – Retains its looks, stretchiness and shape, developed with a TenCate Stretch Recovery™ technology.
Industrial laundering – Can be industrially washed at 75˚C. Suitable for tunnel finishing and tumbler drying. Crease-resistant and faster-drying than regular polyester/cotton fabrics.
Strong and pilling-resistant – Retains its strength and stretch and shows great resistance to pilling even after extensive industrial laundering.
Outstanding value – Suitable for application in work wear and corporate wear. Used in sectors such as healthcare, retail and gastronomy, transport, distribution and delivery services.

TenCate Protective Fabrics

TenCate is the world's No. 1 producer of protective fabrics for the manufacturing of safety wear. We supply garment-makers with an extensive range of top-quality and technologically advanced fabrics. We develop and produce the most comprehensive range of proven, high-performance fabrics used to make protective clothing.

Our fabrics become life-saving garments for firefighters, industrial workers, military personnel and other professionals working under hazardous conditions in danger zones around the world.

We work closely with our customers, end-users, fibre and chemical manufacturers and independent laboratories. As a result, TenCate Protective Fabrics is the one source the world looks to for leadership in knowledge of materials, consistent product quality, and a proven commitment to service excellence.
